PROFILE

Aspiring Java Backend Developer. An individual who can write clean and optimize code. Like to solve Data Structure and Algorithms problems. Looking for enhancing my skills as a Backend Developer.

PROJECTS

DNA NEWS CLONE

https://cute-crepe-fbedeb.netlify.app

DNA News is a daily news website and we made a clone of this website, with four other team members.

Features
- Daily news website with all types of news available.
- User friendly experience.

Tech-Stack
CSS | HTML | JAVASCRIPT

Area of Responsibility
- Work on landing page.
- Gather all the news data and use that data all over the website.

GREEKBUYING CLONE

https://iridescent-empanada-4f8c87.netlify.app

Greekbuying is an Ecommerce website, in this project I worked with four other team members

Features
- End-to-End product purchasing flow from the website.
- All types of products available to purchase.

Tech-Stack
CSS | HTML | JAVASCRIPT

Area of Responsibility
- Team leader and lead the team with an effective manner.
- Work on navbar, footer, cart page and payment page.
